**Business Strategy and Outlook**

Our primary focus is to maintain a safe and efficient operation, sustain profitability . We are undertaking a number of strategic measures designed to achieve these objectives.

- Optimizing our Service network so that the segment can sustain profitability.
- Continuing our efforts to reduce our overhead and operating costs and to maximize productivity.  
(ii) rationalizing station overhead in connection with our ground operations.;
- Improving the flexibility and efficiency of our operations by overhauling our procedures in several key facets of flight operations, ground operations and maintenance;
- Continuing our efforts to maximize our financial flexibility, While we still face a number of significant challenges,, we believe that implementing these and other strategic measures will enable us to become the world's most efficient, capable and diversified operators of long-haul freighter AND PAX aircraft.
